Introduction

The Quality unit at University College Al- Ardah aims at spreading the culture of quality among all faculty members. It also aims to ensure high quality in academics, teaching skills, all the college units, and supporting departments in preparation for obtaining academic accreditation.

Vision

To improve the learning and work experience of Al Ardah College by propelling all academic and administrative units towards attaining better levels of performance to help Al Ardah College have local, regional and national impact and recognition.

Mission

The mission of the Quality Assurance Unit is to enhance the value of work and learning experience at Al Ardah College through the culture of excellence and continuous quality improvement, and to apply an effective quality management system that is designed to spread and enhance quality culture throughout teaching, learning, extracurricular activities, research, and community services.

Goals of the Unit

1. Assuring the adherence of the college to quality standards, processes and measures for achieving national accreditation and recognition and celebrating the successes of the college in attaining and maintaining the national accreditation and ranking to enhance its presence, impact and effectiveness.
2. Refining the quality assurance system to simplify and enhance the processes of quality reporting and institutional research as the backbone for the decision-making and continuous quality improvement processes across the college, and ensuring the collaboration among units in implementing this system.
3. Assuring the quality of the standards, processes and measures used by the academic programs and colleges for students' development, achievement and diversity to ensure that they match national requirements.
4. Assuring the quality of the standards, processes and measures used for attracting, admitting, retaining and developing diverse and capable students to ensure that they match national requirements.

- 5.** Assuring the quality of the standards, processes and measures used to maintain the adequacy of learning and information resources and services offered to Al Ardah community and the outside community to ensure that they match national requirements.

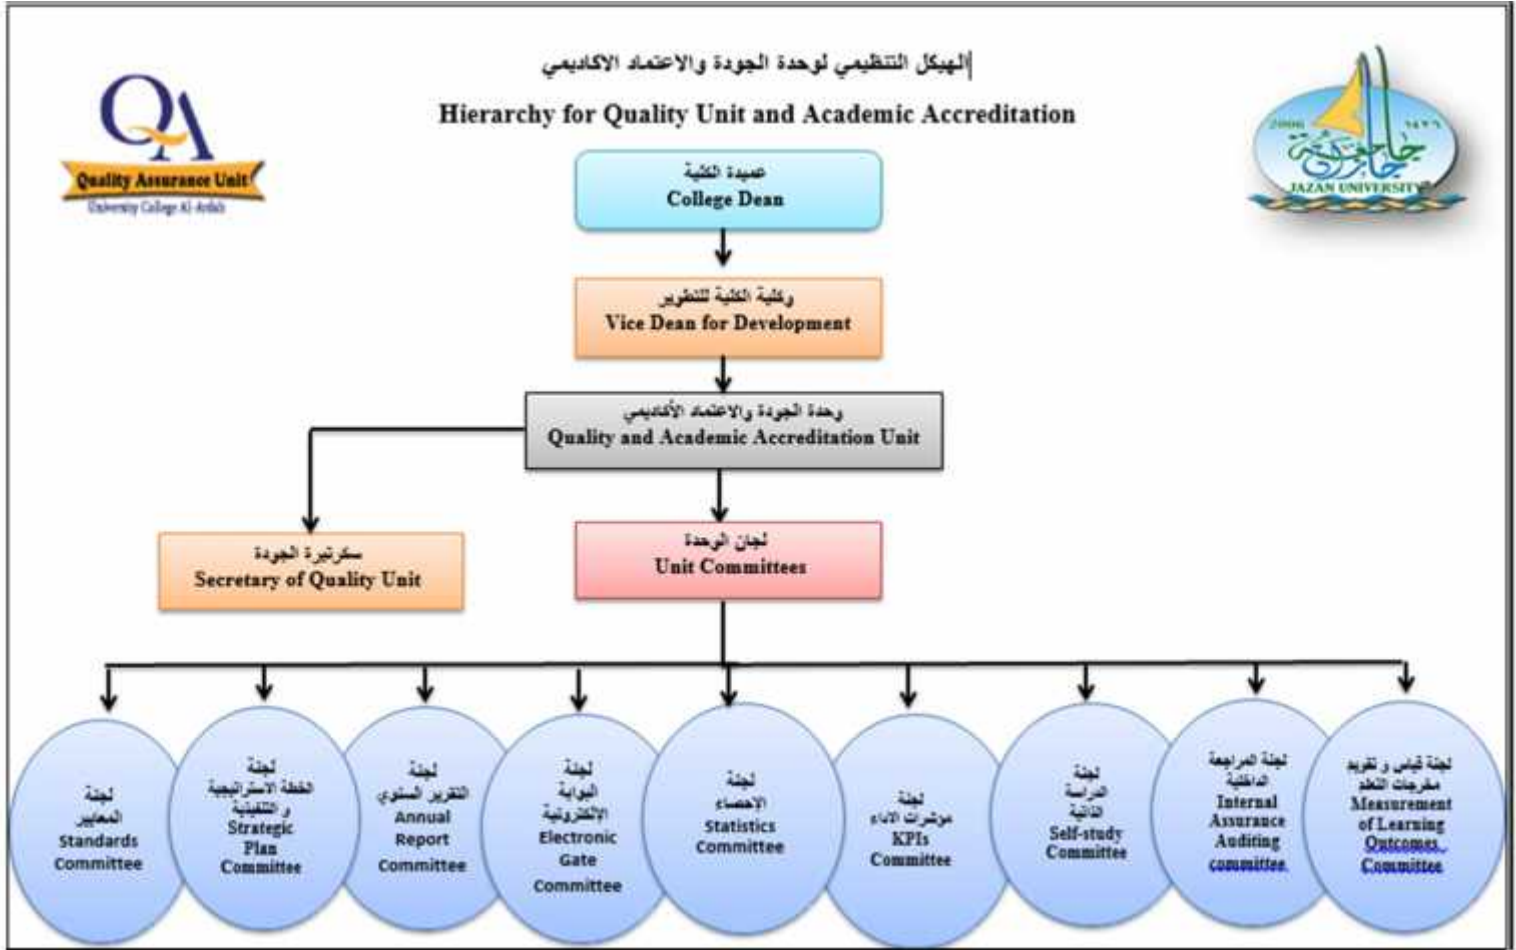

- 6.** Assuring the quality of the standards, processes and measures used to evaluate the quality of campus facilities, IT support and general services, to ensure that they match national requirements.

- 7.** Assuring the quality of the standards, processes and measures implemented by the Management of Human Resources to enhance the university staffing profile, work conditions, orientations and professional development to ensure that they match national requirements, and enhance the effectiveness of the QA training programs offered by internal and external resources to Al Ardah.

- 8.** Assuring the quality of the standards, processes and measures used for evaluating the quality of research growth in the institution to match national and international requirements.

- 9.** Assuring the quality of the standards, processes and measures to enhance Al Ardah College's community engagement and match national requirements.
