1	Solar Photovoltaic Experiment GT-1000	2	Design & Installation of Residential Scale Photovoltaic Systems	

Renewable energy

2	Wind turbine Experiment GT-2000	2	Design & Installation of Residential Scale wind turbine Systems	The image shows a wind turbine experiment setup. It features a large metal cabinet with two wind turbine models mounted on top. The cabinet is open, revealing internal electrical components, including a control panel with a digital display and various wiring. A book titled "Wind Turbine Installation Certification Guide" is visible in the foreground.
3	Smart Grid Experiment GT-700	2	Smart Grid Operations Functions of a Smart Grid Understanding Blueprints	The image shows a smart grid experiment setup. It features a large metal cabinet with various electrical components, including a control panel with a digital display and various wiring. A book titled "Smart Grid Technician Training Guide" is visible in the foreground.
