

Regrading The Final Exam

A student may not request re-marking of answer sheets for more than three courses within a semester. The decision on the student's application is made by the conclusion of the second week of the following semester.

In the case that re-correction of the answer sheets is required, the College Council approves it according to the following rules: 1. A student may request that his college re-mark the answer sheets for a specific course within three working days after the course's final result being announced.
