

Tourism village

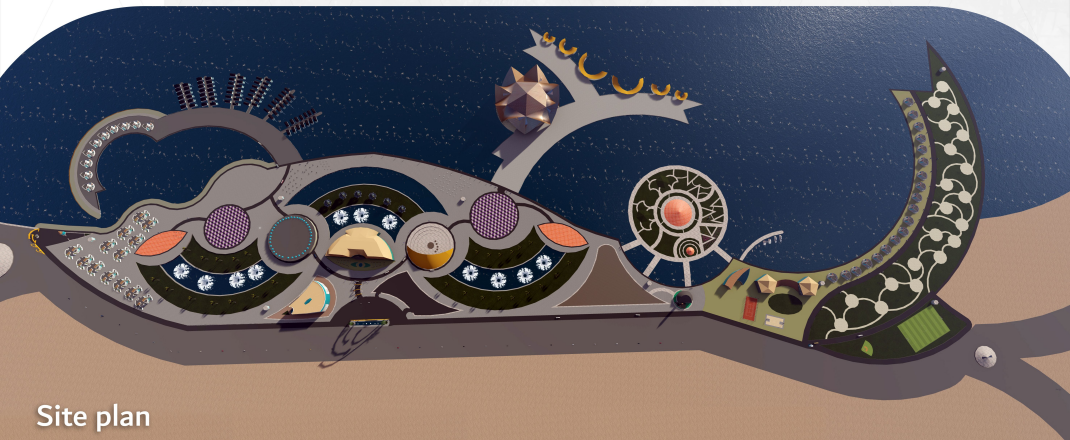

The massive tourism activities have had economic and social consequences and impacts ,And cultural, environmental and urban have had a great and clear impact on the lives of societies ,And the peoples of our time, which called attention to the necessity Organizing, controlling, directing and evaluating these activities to reach the desired goals.

This results in the adoption and adoption of a method of tourism planning that is based on analysis ,And the interpretation and development of all tourism activities.

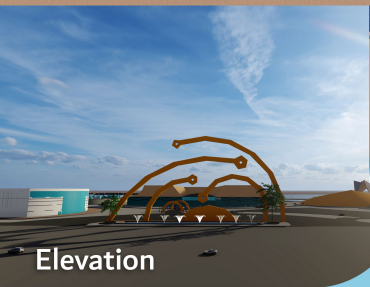

Therefore, it was necessary to address a project that combines entertainment, service and development of the situation Currently, tourist resorts have become of great importance as they are an important resource To stimulate tourism that helps attract tourists and develop the region in the best way.
