Instructions:

- (1) Write your information clearly in the space provided using pen.
- (2) All questions are Multiple Choice Questions (MCQs).
- (3) **Answer all questions, don't leave any.** The score of unanswered questions is 0 and the score of incorrect answer is also 0, so no probability to lose.
- (4) **Answer the questions you know first.** If you're having difficulty answering a question, move on and come back to tackle it once you've answered all the questions you know. Sometimes answering easier questions first can offer you insight into answering more challenging questions.
- (5) It's important to select the best answer, not just an answer that seems correct.
- (6) **Read every answer option.** Read every answer option prior to choosing a final answer. As pointed out in the previous point, there is usually a best answer to every multiple-choice question.
- (7) **Manage your time.** read every question carefully, then come up with your own answer.
- (8) Use the blank space at the back side of each page for your working out.
- (9) Don't spend more than 1:30 minutes for each question, make your choice and move on to the next question.
- (10) In case of guessing, eliminate first unlogic answers.
