

T-104  
2022

## Course Specification

Course Title: **Graduation Project**

Course Code: **491PHYS**

Program: **Physics**

Department: **Physics**

College: **Science**

Institution: **Jazan University**

Version: 2022

Last Revision Date: 21 December 2022

## A. General information about the course:

### Course Identification

1. Credit hours: 2

#### 2. Course type

a. University ☐ College ☐ Department ☒ Track ☐ Others ☐

b. Required ☒ Elective ☐

3. Level/year at which this course is offered: Level 11/Year 4

#### 4. Course General Description

Undergraduate research experience involves students in an original research project or a review of a previous research project. Using one or a variety of methods, students will collect original data and contribute to problem solving in the physics Sciences. As a first research experience, emphasis will be placed on the process of scientific research, including formulation of a research plan, data collection, assessment of data quality, and interpretation based on available data. Students are required to present their results to an audience inside the physics department.

5. Pre-requirements for this course (if any): Department agreement

6. Co- requirements for this course (if any): NIL

#### 7. Course Main Objective(s)

**This course is designed to provide students with:**

- The opportunity to perform a research project within the field of Physics under the supervision of a faculty member.
- Experiences with identifying, accessing, evaluating, and interpreting information and data in support of research.
- Collaborative project experiences involving either written or oral presentations.

### 1. Teaching mode (mark all that apply)

| No | Mode of Instruction  | Contact Hours | Percentage |
|----|--|---------------|------------|
| 1. | Traditional classroom  |               |            |
| 2. | E-learning   |               |            |
| 3. | Laboratory   | 20            | 61 %       |
| 4. | Blended  | 8             | 24 %       |
| 5. | Hybrid <ul style="list-style-type: none"> <li>• Traditional classroom</li> <li>• E-learning</li> </ul> |               |            |
| 6. | Distance learning  | 5             | 15 %       |

## 2. Contact Hours (based on the academic semester)

| No | Activity                          | Contact Hours |
|----|-----------------------------------|---------------|
| 1. | Lectures                          |               |
| 2. | Laboratory/Studio                 | 22            |
| 3. | Field                             |               |
| 4. | Tutorial                          |               |
| 5. | Others (specify) Research project | 11            |
|    | Total                             | 33            |

## B. Course Learning Outcomes (CLOs), Teaching Strategies and Assessment Methods

| Code | Course Learning Outcomes   | Code of CLOs aligned with program | Teaching Strategies   | Assessment Methods   |
|------|--|-----------------------------------|---|--|
| 1.0  | Knowledge and understanding  |                                   |   |  |
| 1.1  | <b>Identify</b> and utilize relevant previous work that supports their research  | <b>PLO1.1</b>                     | Group and interactive guided discussion, Interactive discussion, Literatures collecting                                     | <b>Direct</b> (formative and summative): Written report, Viva voce.<br><b>Indirect:</b> student survey, Presentation |
| 1.2  | <b>Discuss</b> prior knowledge and learning of concepts, theories and principles related to the project task.                          | <b>PLO1.2</b>                     | Diagram illustration, group discussion, Interactive illustrations- Student contribution                                     | <b>Direct</b> (formative and summative): Written report, Viva voce.<br><b>Indirect:</b> student survey, Presentation |
| ...  |  |                                   |   |  |
| 2.0  | Skills   |                                   |   |  |
| 2.1  | <b>Apply</b> fundamental concepts and problem solving skills to constructively address research setbacks.                              | <b>PLO2.1</b>                     | Diagram illustration, group discussion, Interactive illustrations- Student contribution                                     | <b>Direct</b> (formative and summative): Written report, Viva voce.<br><b>Indirect:</b> student survey, Presentation |
| 2.2  | <b>Demonstrate</b> analytical skills and competencies to formulate, drive and analyze physics concepts related to the area of research | <b>PLO2.2</b>                     | Diagram illustration, group discussion, Interactive illustrations.  | <b>Direct</b> (formative and summative): Written report, Viva voce.<br><b>Indirect:</b> student survey, Presentation |
| 2.3  | <b>Apply</b> experimental, Theoretical calculation or numerical simulation methods to solve a given scientific task.                   | <b>PLO2.3</b>                     | Individual and group Hands on experiment, numerical simulation, theoretical Calculation, Data analysis, Results Discussion. | <b>Direct</b> (formative and summative): Written report, Viva voce.<br><b>Indirect:</b> student survey, Presentation |
| 2.4  | <b>Analyze</b> data and synthesize research findings creatively through sustained critical investigation.                              | <b>PLO2.4</b>                     | Individual and group data analysis, Results Discussion.   | <b>Direct</b> Written report, Viva voce.<br><b>Indirect:</b> student survey, Presentation                            |

| Code | Course Learning Outcomes  | Code of CLOs aligned with program | Teaching Strategies   | Assessment Methods  |
|------|---|-----------------------------------|---|---|
| 2.5  | <b>Report</b> research findings in both written and verbal forms.   | <b>PLO2.4</b>                     | Individual and group discussion, report writing and presentation                | <b>Direct</b> Written report, Viva voce.<br><b>Indirect:</b> student survey, Presentation   |
| 3.0  | Values, autonomy, and responsibility  |                                   |   |   |
| 3.1  | <b>Demonstrate</b> capacity to work both independently and in collaboration with others to lead and manage the research work. | <b>PLO3.1</b>                     | Group discussion, group lab work  | <b>Direct</b> (formative and summative): In lab interactive questioning, write-ups, weekly journal entries, content quizzes, individual assignments<br><b>Indirect:</b> student survey, students to evaluation of their group's dynamics and their contributions in the project work. |
| 3.2  | <b>Practice</b> the skills, diligence, and commitment to excellence needed to engage in lifelong learning.                    | <b>PLO3.2</b>                     | Interactive discussion- Case study, group assignment, open discussion - reviews | <b>Direct</b> (formative and summative): follow up of students Curiosity, resilience, reflection, and initiative.<br><b>Indirect:</b> student survey  |
| 3.3  | <b>Demonstrate</b> an awareness and application of appropriate personal, societal, and professional ethical standards.        | <b>PLO3.3</b>                     | Interactive discussion- Case study, group assignment, open discussion - reviews | <b>Direct</b> (formative and summative): follow up of the student' professional and ethical standards.<br><b>Indirect:</b> student survey   |

## C. Course Content

| No    | List of Topics   | Contact Hours |
|-------|--|---------------|
| 1.    | Literature review  | 2             |
| 2.    | Analysis and discussion of the problem   | 3             |
| 3.    | Application of the approaches  | 3             |
| 4.    | Practical research and/or Numerical simulation and/or theoretical calculations in the chosen topic | 10            |
| 5.    | Results analysis and discussion  | 6             |
| 6.    | Writing a research report  | 6             |
| 7.    | Presenting and discussing the research project   | 3             |
| Total |  | 33            |

## D. Students Assessment Activities

| No | Assessment Activities *          | Assessment timing (in week no) | Percentage of Total Assessment Score |
|----|----------------------------------|--------------------------------|--------------------------------------|
| 1. | <b>Supervisor:</b>               |                                |                                      |
| 2. | <b>End-of-Project Evaluation</b> | 11                             | 50 (50%)                             |
| 3. | <b>Referee</b>                   |                                |                                      |
| 4. | <b>Report Evaluation</b>         | 11                             | 25(25%)                              |
| 5. | <b>Presentation</b>              | 11                             | 25 (25%)                             |
| 6. | <b>Total marks</b>               |                                | 100 (100%)                           |

\*Assessment Activities (i.e., Written test, oral test, oral presentation, group project, essay, etc.)

## E. Learning Resources and Facilities

### 1. References and Learning Resources

|                          |   |
|--------------------------|---|
| Essential References     | References and resources on undergraduate research, both general and specific discipline. |
| Supportive References    | References and resources on undergraduate research, both general and specific discipline. |
| Electronic Materials     | Depends on the research topics  |
| Other Learning Materials | Depends on the research topics  |

### 2. Required Facilities and equipment

| Items  | Resources  |
|--|--|
| facilities<br>(Classrooms, laboratories, exhibition rooms, simulation rooms, etc.) | Room for interactive discussion (round table), Laboratories          |
| Technology equipment<br>(Projector, smart board, software)                         | Software, Data show, smart board, printer                            |
| Other equipment<br>(Depending on the nature of the specialty)                      | Specific laboratory equipment if required by the supervisor.<br>SDL. |

## F. Assessment of Course Quality

| Assessment Areas/Issues                     | Assessor                                | Assessment Methods                       |
|---|---|--|
| Effectiveness of teaching                   | Students, Peer, and program leader      | Indirect (CES)- Indirect peer evaluation |
| Effectiveness of students assessment        | Students, Program assessment committee. | Direct/ Indirect                         |
| Quality of learning resources               | Students, Faculty members               | Indirect                                 |
| The extent to which CLOs have been achieved | URP coordinator                         | Direct/ Indirect                         |
| Other                                       |   |  |

**Assessor** (Students, Faculty, Program Leaders, Peer Reviewer, Others (specify))

**Assessment Methods** (Direct, Indirect)

## G. Specification Approval Data

|                    |                  |
|--------------------|------------------|
| COUNCIL /COMMITTEE | DEPARTMENT BOARD |
| REFERENCE NO.      | PHYS2304         |
| DATE               | 28/2/2023        |
