The navigation bar at the top includes "Content" (highlighted with a red box), "Calendar", "Announcements 1", "Discussions 1", "Gradebook 1", "Messages 2", "Analytics", "Groups", "Achievements", and "Student". The main content area shows "Course Content" with a module titled "الموضوع ١: Understanding Academic Writing". This module has a thumbnail image of students in a library, a description, and a "Hidden from students" toggle switch. To the right, there are sections for "Course Faculty" (listing Anwar Ahmed Abd... and Mahmoud el awwad as instructors) and "Details & Actions" (with links to "Roster" and "Course Image"). A sidebar on the left contains icons for "Content", "Calendar", "Announcements", "Discussions", "Gradebook", "Messages", "Analytics", "Groups", "Achievements", and "Student".

## Course Dashboard

The screenshot shows the Blackboard Learn Ultra interface for a course titled "ULTRA\_TEST\_20252". The "Content" tab is selected, highlighted with a red box and a green arrow pointing to it from the left sidebar. The sidebar also includes links for Create, Auto-Generate Modules, Copy Content, Upload, Cloud Storage, Content Market, Content Collection, and Learning Object Repository. The main content area displays a module titled "Understanding Academic Writing" with a description and three dots for more options. To the right, there are sections for Course Faculty (listing Anwar Ahmed Abd... and Mahmoud el awwad as instructors), Details & Actions (Roster and Course Image), and Course Settings (Open). The entire interface is displayed on a laptop screen.

## Course Content Creation

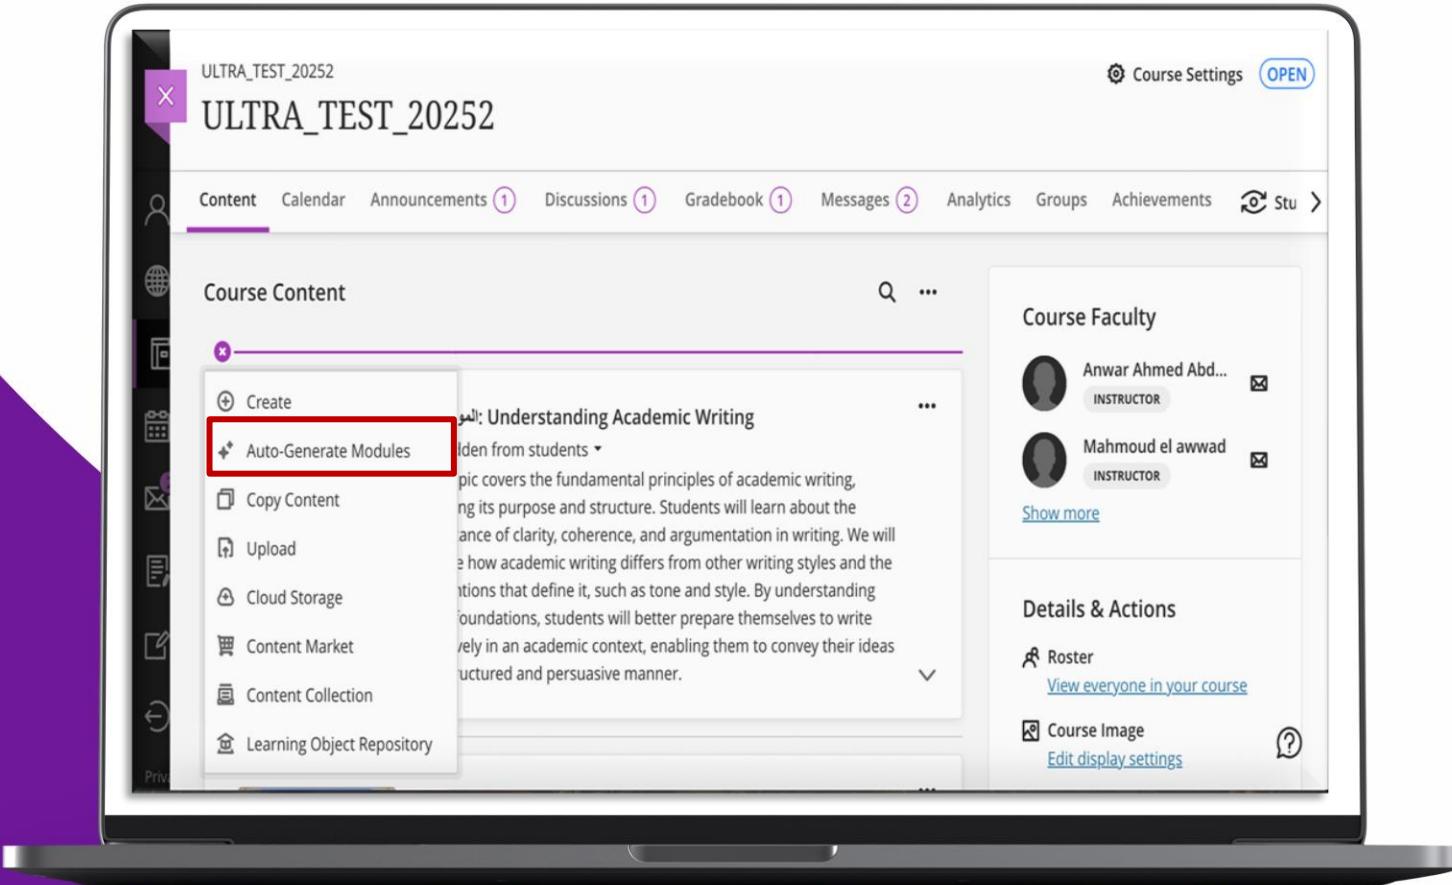

The screenshot shows a Blackboard Learn Ultra interface. On the left, there's a sidebar with icons for Content, Calendar, Announcements, Discussions, Gradebook, and Messages. The main area is titled 'Course Content' and displays a topic titled 'الموضوع ١: Understanding Academic Writing'. This topic includes a thumbnail image of students in a library, a title, a 'Hidden from students' toggle, and a detailed description about academic writing principles. A red box highlights the 'Create Item' dialog box on the right. The dialog has a header 'Create Item' and a section titled 'Course Content Items' with a collapse arrow. It lists five options with corresponding icons: 'Learning module' (list icon), 'Folder' (folder icon), 'Document' (document icon), 'Link' (link icon), and 'Teaching tools with LTI connection' (grid icon). Below this is another section titled 'Assessment' with a question mark icon.

## Create Course Content Item

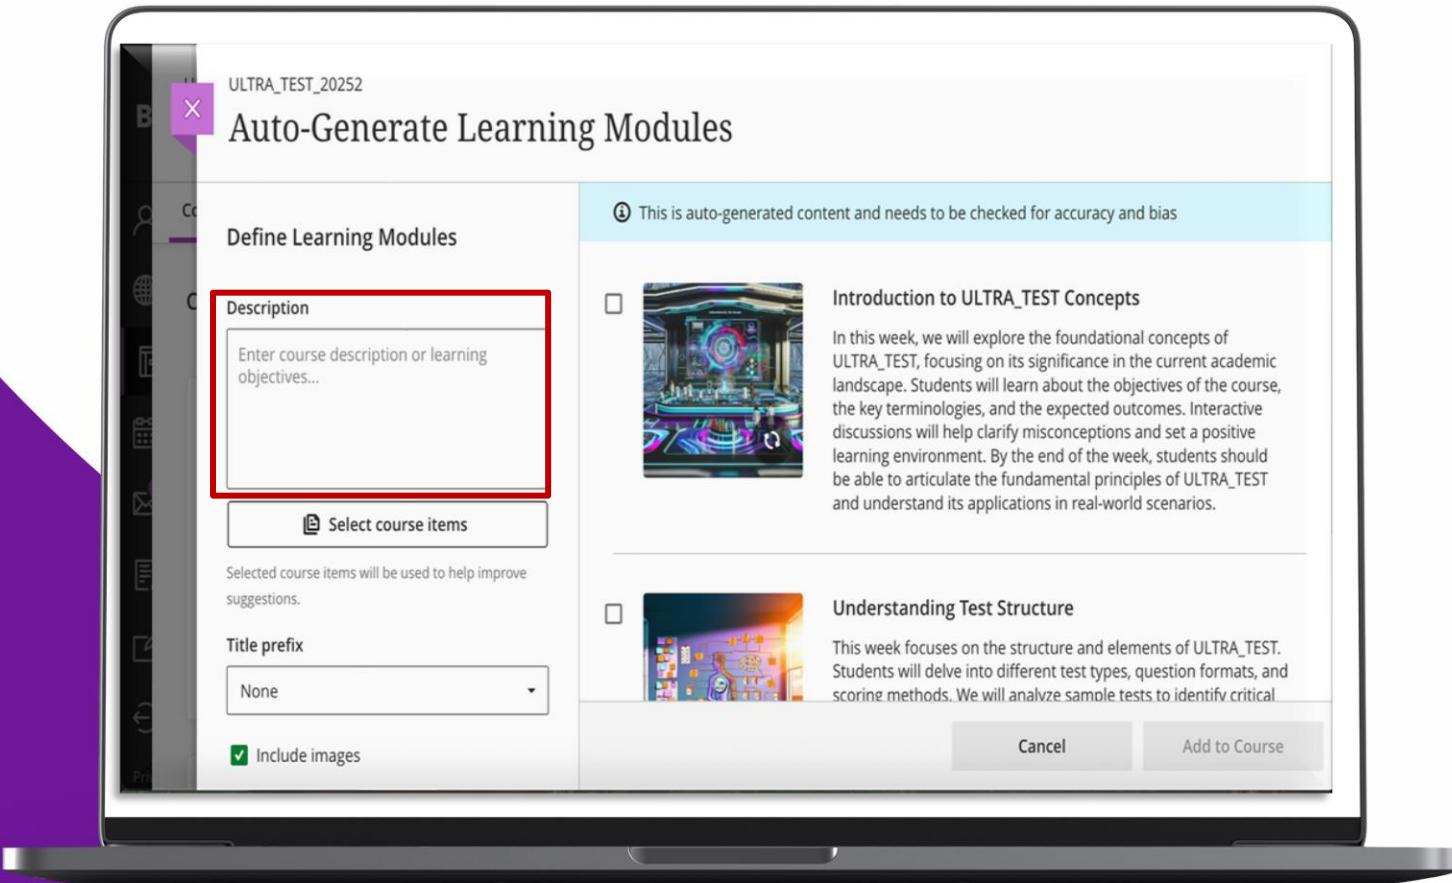

The screenshot shows a Blackboard Learn Ultra course titled "ULTRA\_TEST\_20252". The course content includes a topic titled "الموضوع ١: Understanding Academic Writing" which is hidden from students. A red box highlights the "Assessment" section, which contains three items: "Test", "Assignment", and "Form". Below this is the "Participation and Engagement" section, which includes "Discussion" and "Journal".

## Assessments in Content Creation

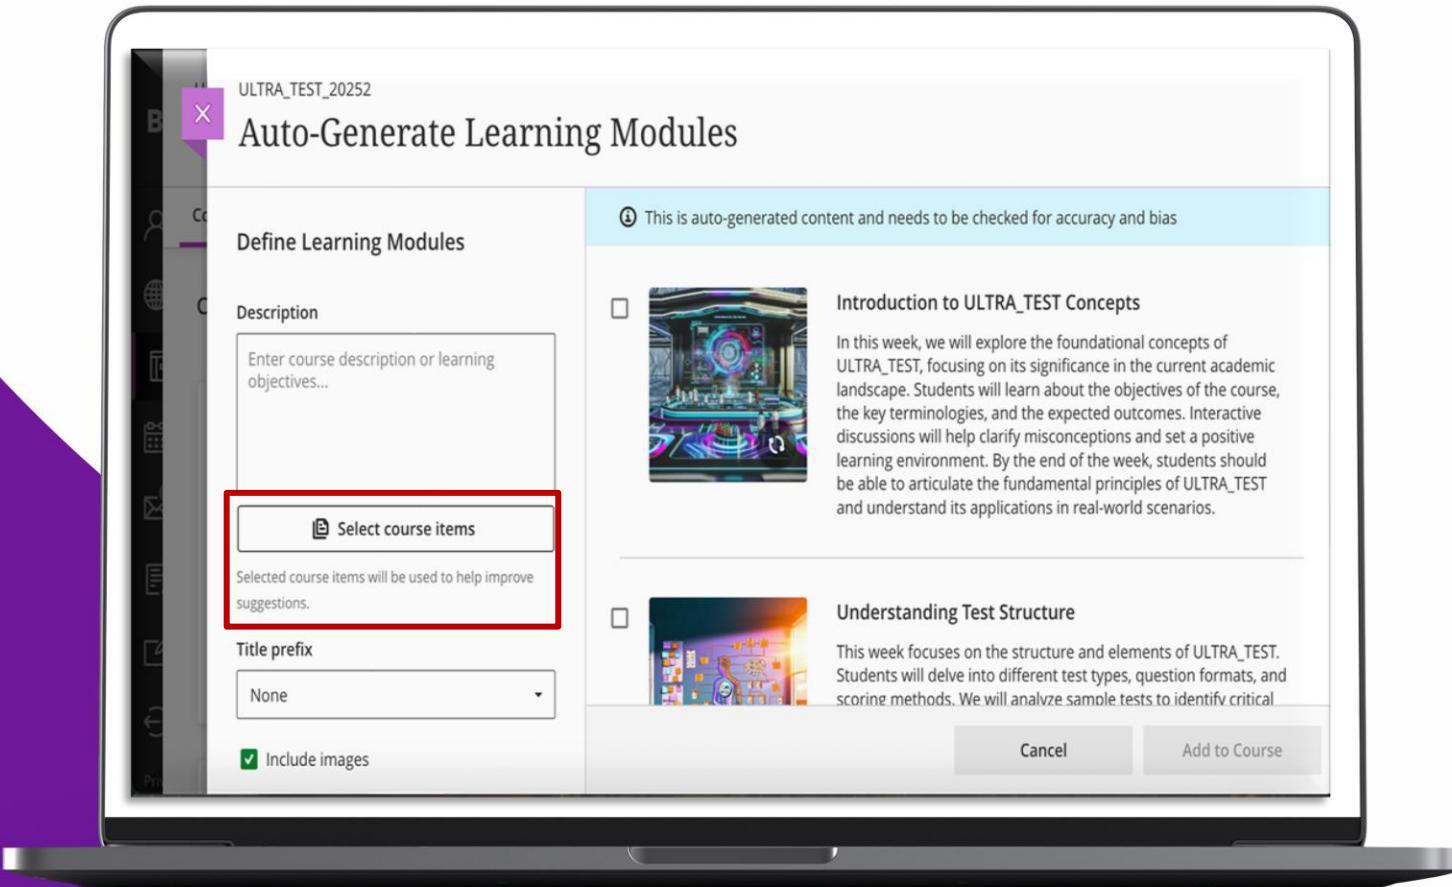

The screenshot shows the Blackboard Learn Ultra interface for a course titled "ULTRA\_TEST\_20252". The "Content" tab is selected. A context menu is open over a module titled "Module: Understanding Academic Writing". The menu items include "Create", "Auto-Generate Modules" (which is highlighted with a red box), "Copy Content", "Upload", "Cloud Storage", "Content Market", "Content Collection", and "Learning Object Repository". To the right of the menu, the module content is visible, describing the purpose and structure of academic writing. Below the content area, there are sections for "Course Faculty" (listing two instructors) and "Details & Actions" (with links to "Roster" and "Course Image").

Introduction to ULTRA\_TEST Concepts

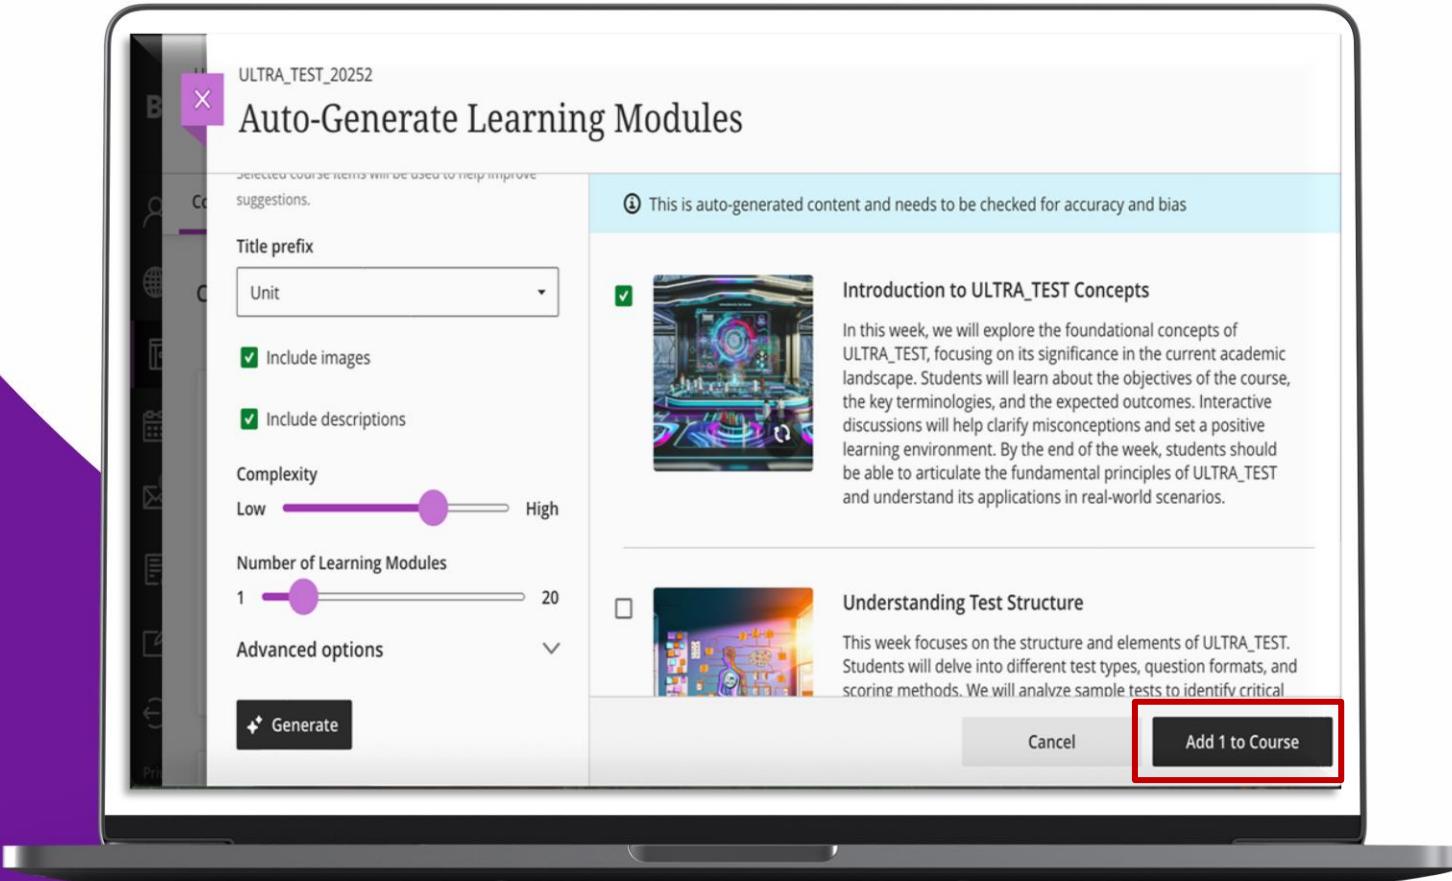

In this week, we will explore the foundational concepts of ULTRA\_TEST, focusing on its significance in the current academic landscape. Students will learn about the objectives of the course, the key terminologies, and the expected outcomes. Interactive discussions will help clarify misconceptions and set a positive learning environment. By the end of the week, students should be able to articulate the fundamental principles of ULTRA\_TEST and understand its applications in real-world scenarios.

Understanding Test Structure

This week focuses on the structure and elements of ULTRA\_TEST. Students will delve into different test types, question formats, and scoring methods. We will analyze sample tests to identify critical
